Aditya Pandey

AI & Full-Stack Developer | Innovation Builder · Lucknow, India
pandeyaditya2685@gmail.com · github.com/AdityaPandey8 · linkedin.com/in/aditya-pandey-3a986b336

SUMMARY

Computer Science student specializing in Data Science, passionate about building AI-powered products, full-stack applications, and technology-driven innovation ecosystems. I enjoy turning ideas into working products — from AI platforms and solutions to community initiatives and hackathon projects.

EDUCATION

Shri Ramswaroop Memorial College of Engineering and Management (SRMCEM), Lucknow, UP — 2023 – Present
B.Tech. in Computer Science & Engineering — Specialization: Data Science

Little Flower School, Deoria, UP — Class XII (ISC) — Completed

Little Flower School, Deoria, UP — Class X (ICSE) — Completed

EXPERIENCE & LEADERSHIP

Event Management and PR Lead — Institution's Innovation Council, SRMCEM — 2026 – Present
- Leading and supporting innovation-focused events, student engagement, outreach, and event execution.

Chapter Lead — AlgoZenith, SRMCEM — 2026 – Present
- Building the campus coding community, encouraging DSA learning, and helping students engage with competitive programming and technical opportunities.

Placement Coordinator — AI/DS Department, SRMCEM — Ongoing
- Coordinating placement activities and exploring job culture.

Full-Stack Development Internship — Completed
- Intensive training and practical work across HTML, CSS, JavaScript, React, Node.js, Express.js, API integration, Context API, Redux, and application development.

Team Lead — Smart India Hackathon (SIH)
- Led a student team through ideation, problem analysis, solution development, and presentation.

Hackathon Team Lead & Participant
- Participated in multiple national and regional hackathons, leading teams through ideation, prototyping, technical development, and pitching.

FEATURED PROJECTS

CONTRIVE8
- AI-powered innovation and startup ecosystem helping students and aspiring founders validate ideas, develop strategies, access AI mentorship, meet real mentors and investors, and create pitch materials.
  React, TypeScript, Supabase, PostgreSQL, Gemini API, AI Agents, RAG, PGVector

KISHU
- AI-driven smart agriculture ecosystem: crop disease detection, weather alerts, mandi prices, government schemes, crop recommendations, and agricultural assistance.
  React, TypeScript, Vite, Tailwind CSS, Supabase, PostgreSQL, Edge Functions, AI

Shiksha Setu — shiksha-setu-bridge.vercel.app
- Offline-first EdTech platform for students in remote and underserved regions: learning resources, quizzes, career guidance, scholarships, and an AI learning assistant.
  HTML, CSS, JavaScript, Node.js, Express.js, JSON, LocalStorage, Web APIs

SahayogAI — sahyogai-gamma.vercel.app
- AI-powered NGO and volunteer coordination platform with issue reporting, intelligent assistance, location-based coordination, and automated reporting.
  React, Node.js, Express.js, AI, Maps, Supabase

SKILLS

AI / ML: Machine Learning, Generative AI, LLM Integration, AI Agents, Agentic AI, RAG, Prompt Engineering
Languages: Python, Java, C, JavaScript, TypeScript
Frontend: React, React Router, HTML, CSS, Responsive Web Development
Backend & APIs: Node.js, Express.js, Django, REST APIs, Supabase Edge Functions
Data: PostgreSQL, Supabase, NumPy, Pandas, Matplotlib
Tools & Cloud: Git, GitHub, VS Code, Vercel, Supabase, Google Cloud

Core: Data Structures & Algorithms, Problem Solving, System Design, API Integration, Database Design, Product Development
Soft skills: Leadership, Communication, Teamwork, Critical Thinking, Adaptability, Time Management, Decision Making
Languages spoken: English, Hindi

INTERESTS

Basketball · Drawing & Sketching · Listening to Music
